

## REFERENCE PARTNER STUDY

# School air-quality evidence study for selected rooms.

Aeroshi runs room-level monitoring before and after ventilation, filtration, retrofit or remediation work, then packages the evidence for school, MAT, council and funder review.

**30**

### SENSORS

Indicative selected-room deployment.

**12m**

### MONITORING

Baseline, intervention and review window.

**GBP 8,100**

### REFERENCE PRICE

VAT not currently charged.

## What the school receives

- Room-level baseline before intervention or routine change.
- Comparison between treated rooms and selected comparison spaces.
- Dashboard access, evidence snapshots and a final evidence report.
- Findings, limitations and practical next steps for review.

## How the study runs

- Select classrooms, shared spaces and comparison rooms.
- Monitor a baseline period before the change.
- Mark filtration, ventilation, remediation or routine changes.
- Review what changed and what remains uncertain.

## Evidence boundary

Aeroshi supports operational, estates and stakeholder decisions. It does not certify health outcomes, prove disease-transmission reduction, replace formal building assessment or provide legal/regulatory certification.

## Included in the reference partner study

- 30 Aeroshi monitoring units.
- 12-month monitoring period.
- Setup and placement guidance.
- Dashboard access and reasonable remote support.
- Evidence snapshots and final evidence report.
- Review call at the reporting stage.

## Scoped separately where needed

- Formal stakeholder review beyond the standard report.
- Intervention evaluation or multi-site support.
- Repeated site visits or onsite installation.
- Attendance, exam-performance or bespoke statistical analysis.
- Custom integrations or network troubleshooting beyond setup guidance.

## Reference partner pricing from GBP 8,100 total

Aeroshi is not currently VAT registered, so VAT is not currently charged.

This early school-sector reference price is available where Aeroshi receives implementation feedback, access to relevant project context, and permission to use anonymised findings as a school-sector case study, subject to school or MAT approval.

## Next scoping step

Confirm the selected school, site layout, target rooms, baseline period, intervention timing, reporting audience and any procurement or funding deadlines.
